

DREW SPANGENBERG
LIAM FLEMING
MARCEL HOOGSTAD HAY

What Is

What Is has evolved from observation and discussion relating to the three exhibiting artists and how their works correlate. Liam Fleming, Marcel Hoogstad Hay and Drew Spangenberg are all JamFactory alumni based in South Australia and each has developed a unique signature over the course of the last decade. Whilst their trademark styles differ significantly, all three artists have progressed from a production background to focus on producing powerful exhibition works that explore the many breathtaking possibilities in working with glass.
